MEMORANDUM FOR THE RECORD

SUBJECT: Request for Additional Information Regarding PSD's
Communications Requirements for FY 1976

REF : Memo dtd 19 Feb 74 to C/P&PS/OL fr C/PSD/OL, subject:
Printing Services Division Communications Requirements
for FY 1976

1. [] from the Office of Communications [] called the Chief, Printing Services Division, to inquire about data links required for applications described in referent. His only concern was an estimate of the bit per second rate required for the five applications listed.

2. At his request, the following information was given to him by telephone:

a. For requirements a and d, one line with a rate of 200,000 bits per second (OJCS to GPP).

b. For requirements b and e, one line with a rate of 9,600 bits per second (OJCS to PSD Main Plant).

c. For requirement c, one link with a rate of 500 bits per second (Key Building to PSD Main Plant).

It was emphasized again to [] that implementation of these plans would require a prior review of customer requirements.

3. The plans and parameters were discussed by [] with [] of PSD, and [] of OJCS.

4. The attachment indicates the basis for the estimates.

[]
Chief, Systems Staff, PSD
